Prenatal ultrasound coverage and coding

Highmark Blue Cross Blue Shield of Western New York (Highmark BCBSWNY) partners with Amerigroup companies to administer certain services to Medicaid Managed Care (MMC) and Child Health Plus (CHPlus) members. Please note, this information is specific to the MMC and CHPlus programs only.

Highmark BCBSWNY covers CPT codes 76801, 76802, 76805, 76810, 76811, 76812, 76815, 76816 and 76817 for outpatient prenatal ultrasounds. This policy communication is limited to the CPT codes specified here. Please refer to the *Clinical Utilization Management Guideline Maternal Ultrasound in the Outpatient Setting (GC-Med-42)* at <https://providerpublic.mybcbswny.com> for detailed medical necessity criteria for maternal ultrasound.

Highmark BCBSWNY will cover one routine prenatal ultrasound for fetal anatomic survey per pregnancy (76801, 76805). Additional ultrasounds billed with procedure codes 76811, 76812, 76815, 76816 and 76817 for suspected maternal/fetal abnormality or follow-up will require an appropriate corresponding diagnosis code indicating medical necessity. Without appropriate diagnosis codes supportive of medical necessity, ultrasounds for procedural codes 76811, 76812, 76815, 76816 and 76817 will not be reimbursed. This policy does not apply to ultrasounds performed by maternal fetal medicine specialists, in hospital settings or by radiology providers.

This policy is based on medical necessity, consideration of nationally accepted medical practice standards, review of medical literature and state approval. We referred to the *American College of Obstetricians and Gynecologists Practice Bulletin, Number 101, February 2009, Ultrasonography in Pregnancy*, in creating this policy. This bulletin states ultrasonography in pregnancy should be used only when there is a valid medical indication. Specifically, the practice bulletin states, "The use of either two-dimensional or three-dimensional ultrasonography only to view the fetus, obtain a picture of the fetus, or determine the fetal sex without a medical indication is inappropriate and contrary to responsible medical practice."

Following is a list of the prenatal ultrasound procedure codes and their corresponding medically necessary diagnosis codes. We hope this information helps you. For questions regarding prenatal ultrasound coverage or utilization management processes, please call our national Provider Services team at **1-866-231-0847**. We appreciate your commitment to the health of our members.
